

Straits Financial

**Managed Futures Division**

This new division focuses on established CTA's (Commodity Trading Advisors) and professionally managed accounts as an addition of alternative assets to all of Straits Financial LLC IIB's, Branch Offices & GIB's as well as our global offices and affiliates. Managed futures provides an excellent opportunity for you to branch out from existing product offerings while targeting a wider group of clients with a customized portfolio assembled to best fit their goals, risk tolerance, and help properly diversify their overall investment portfolios while reducing risk and enhancing returns.

CTAs are professional traders registered with the National Futures Association (NFA) to trade on behalf of investors, and regulated by the Commodity Futures Trading Commission (CFTC). CTAs manage client assets on a discretionary basis using global futures markets as an investment medium with a variety of strategies and trading approaches.

It is beneficial for clients to use managed futures as an integral component to their portfolio to maximize exposure making it well diversified as managed accounts have nearly no correlation to traditional asset classes, enabling them to enhance returns as well as lower overall volatility.

The Managed Futures Division provides your IB with an in depth set of tools specifically designed to help you build a managed book of business that adds a consistent revenue base to your organization without the need to do research, place trades, handle margin calls, etc..

Continuous education on marketing Managed Futures as well as the use of the Straits Financial Managed Futures Division tools such as portfolio builders, updated track record access, approved PowerPoint presentations, professional video introduction to Managed Futures, webinar presentations, studies & a continuously growing library of marketing materials are just some of the benefits of utilizing the Straits Financial Managed Futures Division to diversify and grow your business.

All managed strategies recommended by the Managed Futures Division have been thoroughly vetted and provide you with some of the very best emerging managers as well as the top performing money managers in the alternative investment asset class.

All fee structures have been negotiated by the division directly with each manager to ensure that your organization has the very best opportunity to provide a product to your clients with the best opportunity and potential for very attractive returns while enabling you to make managed futures a very profitable sector of your business.
